## Grace for All

*GPO is Faith Academy's enrichment program. The GPO teachers partner with classroom teachers to provide remediation for each student's individual needs. Our Literacy Intervention Specialists teach Alphabetic Phonics. AP is a multisensory reading, writing, spelling and grammar curriculum. Our Math Specialists use multisensory math techniques to teach Stern Structural Arithmetic.*

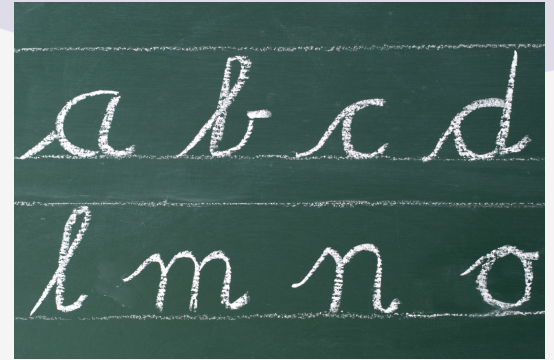

## GPO Teachers

## Messenger Family

"Crew has been involved in the GPO program for about 2 years. It has helped him get extra help and attention where he was struggling and I believe it has been helpful for him being able to go at his own pace and being able to work on what he needs most individually. We are thankful for his teacher Ms. Rusk and all the time she has put into helping Crew."

## Crew Messenger

Crew is 7 years old and in the 1st grade. He likes learning "learned words" because they are words he did not know before taking AP lessons. Crew's favorite part of his lessons is the Grammar Case. He enjoys learning with the frog manipulatives. He says the hardest part of his lessons is spelling. Crew feels it is hard to match the letters with their sounds. Crew's favorite part of the learning strip is the letter deck. He is fast at saying the key words and their sounds. Crew said he really likes books about animals and sometimes his mom reads them to him. When asked what he wants to learn next, Crew said Latin.
